DONAR – LIGHT CONTROL WHERE IT MATTERS

BEAM ANGLES (15°–70°) AND EVEN UGR <19

With various beam angles and optical accessories (honeycomb, clear or frosted glass), Donar suits both general lighting and low-glare applications like offices and schools.

DONAR – BUILT TO PERFORM

HIGH EFFICIENCY UP TO 142lm/W – FLUX UP TO 4000lm

Donar XS: up to 1600lm (14W)
Donar S: up to 3100lm (23W)

Donar M: up to 3100lm (23W)
Donar L: up to 4000lm (31W)

DONAR – FOR INSIDE OR OUTSIDE

FOR INDOOR OR OUTDOOR USE

Donar XS features IP65 protection at the optical side, making it ideal for outdoor use and humid environments. Other sizes are available with IP65 on request.

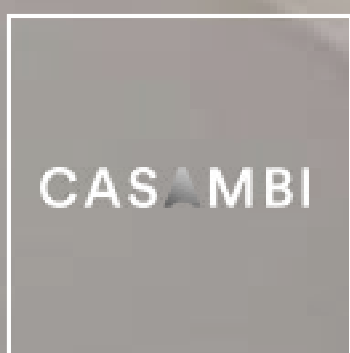

DONAR X-FLIP

X-FLIP VERSION

A tool-free solution to change the LED module and reflector, just twist, like a bulb. X-flip supports circular design and reduces electronic waste. For flexible, sustainable, future-proof lighting upgrades.

DONAR – EXTRA OPTIONS

The light you need. The spec you trust.
